

We produce the clearest, most realistic and advanced holographic images in the world.

Zebra Imaging, number 348 on the Inc 500 list of fastest-growing private companies and number 99 on Deloitte Technology Fast 500 list, is pushing the boundaries of color, interactive, real-time holography. Zebras include world-class experts and inventors in the areas of 3D imaging, holography, computer graphics, 3D data processing, and systems design, development and engineering. Located at the edge of the Texas Hill Country in Austin, surrounded by high-technology, we are the innovative leaders in new media holography. If you would like to be part of a collaborative, multi-disciplinary high growth company taking hologram technology to the next level, consider a career with us!

Senior Software Program Manager

Full-time Position

Experienced Software Program Manager to support Zebra's world class software engineering team. This position will be responsible for planning, scheduling, management support and execution of a wide variety of complex software initiatives on custom hardware.

Essential Job Functions include but are not limited to:

- Provide leadership and direction in support of a wide variety of corporate software initiatives to ensure high quality, on time delivery of program goals.
- Utilizing MS Project, plan, schedule, and facilitate the management and development of software programs.
- Experience project managing the integration of custom SW on custom HW is a strong plus.
- Resource and workload planning to ensure appropriate levels of staffing is in place to meet program and business objectives.
- Identify and manage risks and issues on projects. Involve stakeholders in the adoption of risk mitigation strategies.
- Publish program objectives through the development of detailed customer driven software project requirements documents.
- Establish and track program schedules and maintain project budgets and timelines.
- Define and implement processes and methodologies, with continuous improvement, to ensure a quality solution is delivered. Work with production, applications and corporate QA to collect quality metrics, analyze results and implement corrective actions.
- Interact with Sales and Marketing teams to determine business opportunity and market requirements.
- Create and publish status reports on software projects as required by Senior Management and Marketing.
- Facilitate the development of business and technical requirements from customers.

- Influence direction and strategy for prioritizing projects to optimize staff efficiencies and maximize deliverables.

Knowledge, Skills, and Abilities:

- Program, Project and Customer Management experience required.
- Experience with Software Release, Configuration Management, Software Test and Quality Processes.
- Special consideration given to candidates with a demonstrated understanding of how SW drives electro-mechanical hardware.

Requirements:

- BS in Computer Science, Electrical Engineering or equivalent with an emphasis on program/project management.
- Minimum 10 years program management experience required.
- This position requires the ability to obtain and maintain a U.S. Government security clearance.

Zebra Imaging offers highly competitive base salaries, stock options and a full complement of benefits upon date of hire. Traditional benefits: medical dental, vision and life insurance, short-term and long-term disability insurance, 401(k) plan, educational expense reimbursement, three weeks vacation and 12 paid holidays annually. Non-traditional benefit: An opportunity to contribute to this leading edge technology in a fun, energetic environment.
